

Letter from the Editors

"Growing Pains"

Greetings to all the faithful readers of the Journal of Musculoskeletal and Neuronal Interactions (JMNI). The Journal is suffering from growing pains. In order to lighten the work load on us (the two Co-Editors-in-Chief), we have added more Associate Editors, eight to be exact. Here are the additions: David Burr for Biomechanics, Mechanical Adaptation of Bone, Osteoporosis and Osteoarthritis; Dieter Felsenberg for Radiology, Osteoporosis and Bone Diseases; Geoffrey Goldspink for Muscle Physiology; Patrick Mantyh for Cancer and Neurology; Brendon Noble for Cell Biology; Robert Recker for Genetics, Osteoporosis and Bone Diseases and Frank Rauch and Jörn Rittweger for "What's New".

In addition, we have added four new Editorial Board Members: Hong-Wen Deng for Genetics, Martin Runge for Gerontology, Dale Sumner for Implants and Wei Yao for Animal Models.

Lastly, Mrs. Becky Setterberg will join us as Managing Editor of the Salt Lake City office.

We are overjoyed that this esteemed group have joined in to help to increase the momentum to elevate this Journal to a key place in scientific literature. Welcome aboard!!!

Webster S.S. Jee, Ph.D.

George P. Lyritis, M.D.

Co-Editors-in-Chief
